National Police Week

Director Wray Draws Attention to Dangers Facing Law Enforcement

Director Christopher Wray participated in a memorial service at FBI Headquarters on October 14, 2021, to honor FBI employees who gave their lives in the line of duty.

As part of an annual week honoring police who have died in the line of duty, the FBI honored its own fallen,

including seven whose names were added to the Bureau's Wall of Honor this year. Among those remembered were two FBI Miami special agents who were ambushed and killed as they tried to search a home of a suspect in February.

Typically held in May annually, several

in-person events surrounding Police Week were postponed until fall this year, including a motorcycle tour, candlelight vigil, wreath laying ceremony, and Blue Mass service.

In an interview during Police Week events last week, FBI Director Christopher

Wray reflected on the sacrifices of the Bureau's law enforcement partners, who risk their safety to protect the public.

"I want the men and women of law enforcement, the heroes in law enforcement, to know how grateful I am for their work, for their courage, for their service—in

some cases, for their sacrifice," Wray said.

Today, the FBI released statistics on law enforcement officers assaulted in the line of duty in 2020. Statistics released earlier this year show 93 law enforcement officers died in the line of duty in 2020, and that number is expected to increase for 2021.

Horoscopes

shrinking into your imagination, you should expand your energy outward to the people around you. Your heart is caring and sensitive. It's time to earn some public recognition for its loyalty and loving nature. Stand up and take a bow for all the incredible things you do for others.

Scorpio 10/23-11/21

In many respects, the energy of the day can't get much better for you. It's up to you to direct this energy into action that will nourish your soul. There's a great deal of power and strength behind your emotions. You should make sure that you carry this good feeling with you into every situation from now on.

Sagittarius 11/22-12/21

Consider cooking dinner for a large group tonight. Ask everyone to pitch in some money and you'll be surprised at the fantastic masterpiece you can create with just a small amount of effort on your part. Set the table with candles and add good music in the background. Even if a dinner party doesn't sound like a fun idea now, take a leadership role in whatever events come your way.

Capricorn 12/22-01/19

Once you take the first step today, the rest of the way will be a piece of cake. Before you know it, you'll have completed the entire marathon with very little sweat on your brow. The one thing to watch out for is that you don't run over any-

one in your dash to the finish line. Be careful of the runners beside you and treat them as friends and supporters instead of opponents.

Aquarius 1/20-2/18

You could feel a great deal of pressure from the people around you to join in their festivities. Perhaps you're being lured into the frenzy of activity. Don't feel like you have to be a part of the party if you don't want to be. The worst thing for you to do would be to pretend that you're interested when you aren't.

Pisces 2/19-3/20

You may have so much fun today that you forget to check on the happiness of the people around you. You should feel quite a surge of strength because of the energy of today, but realize that other people may have a hard time keeping up with your fantastic pace. Stop and take a break in order to allow other people to catch up.

Aries 3/21-4/19

You may not be terribly impressed with the activity going on around you, but that doesn't mean you have to be miserable because of it. This isn't the time to sit back and let others take the lead. If you see something you don't agree with, step up and make it known. Do what you can to change the course of events by letting your powerful voice be heard.

Taurus 4/20-5/20

There's a trajectory of truth to

maintain today. If you try to go against the flow, you'll have a difficult time achieving your goals. You're much better off setting your sights on something downstream so that you can utilize the incredible force that already has a great deal of momentum behind it. There's no need to reinvent the wheel on a day like this.

Gemini 5/21-6/20

You're competing with someone today as you fight for dominance in a situation. The unspoken battle has begun, and the war won't end until you've successfully claimed your victorious position as ruler of the mountain. Defend your territory if you feel that someone is stepping on it. If you don't make it known that you're the boss, someone else surely will claim that spot.

Cancer 6/21-7/22

Don't hesitate to dive into whatever project or situation suits your fancy today. Your luck will make you victorious in whatever game you choose.

Happiness is almost inevitable. Don't be afraid to share your enthusiasm with others. Your confidence is incredibly inspiring. Others are lucky to be on your team.

Leo 7/23-8/22

Don't blow things out of proportion today. You're apt to have a tendency to exaggerate everything to such a degree that you completely lose touch with the true reality of the situation. You could be painting a terrible scene in order to elicit pity from others. Be honest about the situation before you create more enemies than friends.

Virgo 8/23-9/22

Your emotions are dynamic and extreme today. They're apt to control every action you take whether you realize it or not. Be aware that it's best to realize it so you can then control these volatile feelings instead of being controlled by them. This doesn't mean you should try to ignore them by pretending they don't exist.
