## CDC Expands Eligibility for COVID-19 Booster Shots

icon and CDC's recommendation for use are important steps forward as we work to stay ahead of the virus and keep Americans safe.

For individuals who received a Pfizer-BioNTech or Moderna COVID-19 vaccine, the following groups are eligible for a booster shot at 6 months or

more after their initial series:

- 65 years and older
- Age 18+ who live in long-term care settings
- Age 18+ who have underlying medical conditions

million people who got the Johnson & Johnson COVID-19 vaccine, booster shots are also recommended for those who are 18 and older and who were vaccinated two or more months ago.

There are now booster recommendations for all three available COVID-19 vaccines in the United States. Eligible individuals may choose which vaccine they receive as a booster dose. Some people may have a preference for the vaccine type that they originally received, and others may prefer to get a different booster. CDC's recommendations now allow for this type of mix and match dosing for booster shots.

Millions of people are newly eligible to receive a booster shot and will benefit

from additional protection. However, today's action should not distract from the critical work of ensuring that unvaccinated people take the first step and get an initial COVID-19 vaccine. More than 65 million Americans remain unvaccinated, leaving themselves – and their children, families, loved ones, and communities – vulnerable.

Available data right now show that all three of the COVID-19 vaccines approved or authorized in the United States continue to be highly effective in reducing risk of severe disease, hospitalization, and death, even against the widely circulating Delta variant. Vaccination remains the best way to protect yourself and reduce the spread of the virus and help prevent new variants from emerging.

The following is attribut-

able to Dr. Walensky:

"These recommendations are another example of our fundamental commitment to protect as many people as possible from COVID-19. The evidence shows that all three COVID-19 vaccines authorized in the United States are safe – as demonstrated by the over 400 million vaccine doses already given. And, they are all highly effective in reducing the risk of severe disease, hospitalization, and death, even in the midst of the widely circulating Delta variant."

## Horoscopes

more rapidly toward your goals. Advancement is definitely on the horizon. You might decide to increase your marketability by signing up for a course of some kind, perhaps an advanced degree. All systems go!

**Sagittarius 11/22-12/21**

If you've been considering writing or teaching, today is the day to get started. Your imagination is intense, you're inspired, and your way with words is sharper than usual. You could also sell anything. If you want to pitch a project to someone, do it now. Many ideas may be running through your mind. It would be a shame not to set them down on paper.

**Capricorn 12/22-01/19**

Contact with a lot of friends may take place today. Invitations to social events could come your way. Your relationship with your friends is congenial. You could be introduced to new friends. Some of the people you meet could be from distant states or foreign lands or involved in unusual occupations. This could prove an exciting, stimulating day.

**Aquarius 1/20-2/18**

Today's intense celestial energy will help you make progress toward your goals. Your mind will be quick and receptive and your writing and speaking abilities especially acute. You might feel that you could sell anything to anyone if you wanted to. Make the most of

this intellectual power. Start new projects now. If you do, success is more than likely.

**Pisces 2/19-3/20**

Your creative impulse should be high today. You might decide to try some writing. You may have a particular subject in mind to write about. You could also take a class in a subject that interests you, or do a little research on your own. You might consider some long-distance travel for pleasure as much as for learning. The sky's the limit.

**Aries 3/21-4/19**

Intense, vivid dreams spark your mental processes. You could wake up wondering why you dreamed what you did and what it has to do with what's going on in your life. Dream books can be helpful. What do the symbols mean to you? The symbols, or even the story itself, could set in motion a mental chain of events resulting in a new project of some kind. Make the most of it!

**Taurus 4/20-5/20**

A phone call from a partner could have you suddenly playing the role of salesperson. You might have a project you want to pitch, you might need to sell your way of doing something, or you might actually have to sell a product. Whichever it is, you're likely to succeed. You're especially quick and expressive today. Your powers of persuasion are high.

**Gemini 5/21-6/20**

Money and creativity are successfully joined today. You might make money from a completed project, or you could receive some money to finance a project. Others might share in your efforts, but you're the mind behind the whole thing. Your intellectual powers are particularly strong. You're better than usual at expressing your ideas.

**Cancer 6/21-7/22**

Today you're likely to be especially sharp. Your intellectual powers are operating at a high level. A wealth of new ideas may come to you from all sides, without and within. You're more talkative than usual and want to share your ideas with others. Optimism and enthusiasm define you today.

**Leo 7/23-8/22**

You may feel inspired to make certain changes in your home. Your imagination is especially acute, so it's easy to visualize how the rooms will look after-

wards. You could seek others' opinions, too. Now you need to sell your family on the idea. Don't worry - you can do it. Your persuasive powers are at an all-time high.

**Virgo 8/23-9/22**

You may want to take a more judicious approach to your shopping sprees. Try spending the afternoon looking and trying on but not buying. That way, you'll have time to reflect on whether or not you really want and need the items. This could help cut out a lot of impulse spending. Your wallet will be fatter and happier.

**Libra 9/23-10/22**

Today you have a quick intellect and intensified persuasive powers. Acute mental powers are joined with personal power to bring about career and financial success. Any projects you start or complete today are destined for success followed by public recognition of some kind. This is a great omen for your future.
