## New CDC Study: Vaccination Offers Higher Protection than Previous COVID-19 Infection

*Study participants were over 5 times more likely to have COVID-19 if they were unvaccinated and had a prior infection*

CDC published new science reinforcing that vaccination is the best protection against COVID-19. In a new MMWR examining more than 7,000 people across 9 states who were hospitalized with COVID-like illness, CDC found that those who were unvaccinated and had a recent infection were

5 times more likely to have COVID-19 than those who were recently fully vaccinated and did not have a prior infection.

The data demonstrate that vaccination can provide a higher, more robust, and more consistent level of immunity to protect people from hospitalization for COVID-19

than infection alone for at least 6 months.

"We now have additional evidence that reaffirms the importance of COVID-19 vaccines, even if you have had prior infection. This study adds more to the body of knowledge demonstrating the protection of vaccines against severe

Jennifer Hyde, 41, Cedar Lane Knoxville, was charged with Mfg/Del/Sale or Poss. Of Meth, Legend Drug, and Sch. II Drug.

Deputy Rodriguez, observed a black Nissan Sentra traveling Eastbound on Highway 70 with a license plate light out. Deputy conducted a traffic stop with the vehicle using his emergency equipment on Highway 70 at Shipley Lane. Deputy made contact with Jennifer Hyde, driver/arrestee, who had started acting nervous-like. Deputy asked Ms. Hyde to step out of the vehicle as he conducted his investigation. Deputy asked Ms. Hyde if he can search her vehicle to which she gave him permission. During my investigation, Deputy observed Ms. Hyde to possibly be under

the influence of some type of narcotic due to her not being able to keep her eye open and slurring her speech. As Deputy stepped away from Ms. Hyde to speak to his partner, Deputy observed her blading her body away from us and had her hand in her pants attempting to grab something. When Deputy approached her and grabbed her arm, she started to panic and stated she has narcotics on her. She was concealing half a gram of meth (T.C.A. 39-17-434), 2x pills of Amphetamine and Dextroamphetamine (T.C.A. 39-17-407), 3x pills of Lorazepam, and 2 1/2 pills of Alprazolam (T.C.A. 55-10-105). Ms. Hyde was placed in custody and the narcotics were tested using the TruNarc device at the Justice Center. This occurred in Loudon County, TN.

disease from COVID-19. The best way to stop COVID-19, including the emergence of variants, is with widespread COVID-19 vaccination and with disease prevention actions such as mask wearing, washing hands often, physical distancing, and staying home when sick," said CDC Director Dr. Rochelle P. Walensky.

The study looked at data from the VISION Network that showed among adults hospitalized with symptoms similar to COVID-19, unvaccinated people with prior infection within 3-6 months were 5.49 times more likely to have laboratory-confirmed COVID-19 than those who were fully vaccinated within 3-6 months with mRNA (Pfizer or Moderna) COVID-19 vaccines. The study was conducted across 187 hospitals.

COVID-19 vaccines are

safe and effective. They prevent severe illness, hospitalization, and death. CDC continues to recommend everyone 12 and older get vaccinated against COVID-19.

And the bond between Friends and their library is strong. That's why they're inviting other library lovers to join them in standing together to support their library, a place that is open to all.

## Horoscopes

an open attitude toward the world. Some outside events give you the impression that you're advancing in a concrete manner toward a new life. You can expect to have some pleasant surprises.

**Sagittarius 11/22-12/21**

In your case, the phrase "turning point" has some meaning. This turning point could take the form of a new person or a key event that changes things forever. Sometimes amazing things we hear about really do happen. One of these things may be happening to you in the coming months.

**Capricorn 12/22-01/19**

It may be that you've come back deeply changed from a long voyage. Of course, travel changes everyone to some extent, but in your case, the change is more profound. You're going to have a problem getting back into your old life. It may feel too limiting for you. So what are you waiting for? Change it!

**Aquarius 1/20-2/18**

If you feel suffocated by your romantic relationship, if you feel it lacks spice or is too traditional, then why not liberate yourself? Today's planetary energy will help you turn even your craziest ideas into reality. Starting today, you're going to be asked to be more decisive.

**Pisces 2/19-3/20**

You've met some strange people who have greatly influenced your attitude about your marriage or partnership. Some people have been pushing you toward more freedom. These people have been influenced by the planetary alignments, but that's no reason you have to be. Freedom or lack of it is completely subjective.

**Aries 3/21-4/19**

If you've yearned to modify something in your daily life, do it now. The planetary energy is telling you that the hour has come to make concrete changes. Whether the change you seek is at home or at work, physical or emotional, don't be afraid to seriously upset the status quo of your life.

**Taurus 4/20-5/20**

The planetary shift will probably be imperceptible today, but you'll have several months to understand how this change impacts you. It will dawn on you that you feel a strong need for liberation. Perhaps you need to release yourself from the bonds of your group. Change and innovation are in the air!

**Gemini 5/21-6/20**

You mustn't expect any enormous changes today. The process you began three or four years ago will accelerate slightly. You're changing the moorings of your identity, the ideas that make you sure of who you are. Your

family, background, and education no longer count for as much as your spiritual foundations.

**Cancer 6/21-7/22**

The day ahead should be fairly positive. You'll begin to feel the faintest hint of a major change beginning. This new phase will last seven months. As it progresses, you'll find greater freedom of expression. You can expect to shift into high gear on subjects you used to avoid in the past. Some friction with siblings may arise in the next few months.

**Leo 7/23-8/22**

The solar system is liable to trigger a transformation that will last several months. The change will center on the means you use to fulfill yourself in terms of your career and love life. If you feel hemmed in by your training or upbringing, you can expect to seek liberation from these inhibitions in the months to come.

**Virgo 8/23-9/22**

It's an excellent day for you! Although no major events occur today, there's the promise of freedom in the coming months. A fundamental shift is about to occur in your occupation and love life. As the months unfold, you can expect to be more visionary, more creative, and perhaps more rebellious. You'll be much more effective than in the past two or three years.

**Libra 9/23-10/22**

To understand the shift occurring today, you must look at events from a lofty perspective. A slow liberation process is gathering momentum. Over the next few months you won't refuse an opportunity to rid yourself of an oppressive part of your past. You'll shed your old complexes and emerge renewed. Don't be alarmed if family relations suffer a bit. The distress is only temporary.
