CDC Offers Winter Safety Tips

The Centers for Disease Control and Prevention (CDC) has been closely following the extreme weather events across the country and offers these tips to help keep you and your family safe.

Learn how to protect yourself from deadly carbon monoxide poisoning: Carbon monoxide (CO) is produced by furnaces, vehicles, portable

generators, stoves, lanterns, gas ranges, or burning wood. You can protect yourself from common sources of carbon monoxide poisoning, which can lead to serious illness or death. For example, don't ever heat your house with a gas oven or burn anything in a stove or fireplace that is not vented. And if your power goes out, remember to never use a gen-

erator, charcoal grill, camp stove, or other gasoline- or charcoal-burning device inside your home, basement, or garage, or outside less than 20 feet from a window, door, or vent. Other safety tipspdf icon include:

vehicle on to Blue Springs Road where he activated his blue lights. The vehicle turned into Blue Springs Road and traveled to the top of the driveway at a

high rate of speed. Deputy made contact with the driver Ricardo Cruz as he was exiting his vehicle. Deputy could not see his hands and advised him to put his hands up.

He reached into his jacket pocket and Deputy the told him to put his hands on top of the car and he did briefly and then put his left hand in his jacket pocket.

Deputy told him to place his hands behind his back and he refused. Deputy had to pull his hands behind his back and at one point he got his left hand free and tried to reach into his jacket. Deputy was able to regain control of his hands and placed him in hand cuffs. Due to the possibility of him becoming combative again field sobriety was not preformed. Mr. Cruz was read implied consent and refused to answer.

While en route to the jail Mr. Cruz stated that he would pay me different amounts of money if Deputy took him home and released him.

Deputy told him that he was not going to do that and he stated that he would "f\$\$k me up" when he was released from jail.

Deputy then pushed him against the car and had to place his hands on the vehicle and did a quick pat down. Mr. Cruz was asked to provide his drivers license and he stated that he did not have one. During this time Deputy could smell the odor of an alcoholic beverage coming from his person and his speech was very slurred. Deputy asked him if he had anything to drink and he stated "not enough". Mr. Cruz did not seem very coherent while Deputy was speaking with him and his friends started coming out of the house.

leave the garage door open. Seek prompt medical attention if you feel dizzy, light-headed, or nauseated and suspect CO poisoning. If you have a CO detector, leave your home immediately and call 911 if it sounds. If winter weather is forecast where you live, be prepared for winter health hazards:

Winter weather can impact your home, car, pets and even the amount of time you spend outdoors. Power outages also can occur this time of the year, so it is important to prepare ahead of time. Winterize your home by installing weather stripping, insulation, and storm windows. Get your car ready for cold weather with preventive maintenance and keep an emergency kit in your car including blankets, food and water, first aid supplies, and other items you may need if

you are stranded.

CDC also recommends that you take precautions when spending time outdoors. Wear appropriate outdoor clothing and be aware of the wind chill factor. Check weather reports, tell someone where you are going, and keep your cell-phone charged. If you are injured by cold weather, learn how to avoid, spot, and treat frostbite and hypothermia.

This winter, don't forget COVID-19 precautions:

During the ongoing COVID-19 pandemic, CDC continues to advise precautions to keep yourself and others healthy. If you go into a public building or warming shelter to stay warm, wear a mask, bring hand sanitizer, and stay at least 6 feet from others. Scarves, ski masks, and balaclavas are not substitutes for masks, but you can wear them over your mask. If it is too cold to safely open doors or windows,

consider other approaches for reducing virus particles in the air, such as using air filtration and/or bathroom and stove exhaust fans.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

CDC works 24/7 protecting America's health, safety and security. Whether disease start at home or abroad, are curable or preventable, chronic or acute, or from human activity or deliberate attack, CDC responds to America's most pressing health threats. CDC is headquartered in Atlanta and has experts located throughout the United States and the world.

memory and imagination come up with. Is your life what you dreamed it would be? If not, consider what you could do to change it. Maybe you should lie on your back and gaze at the clouds or stars. This childlike activity may spark some ideas for you.

Aries 3/21-4/19

If you feel cautious today, Aries, don't be alarmed. This can be a good thing, Aries, as you can be too trusting at times or forget to take care when going into something new. Use a little caution in everything you do to keep safe. This is true with relationships, too. Give a little more thought and time to things to help you choose more wisely.

Taurus 4/20-5/20

Taurus, personal dignity will be important to you today. This may come about when things go wrong or if you're accused of something you didn't do. You always have control over your dignity. Your daily actions affirm this. The key is to hold on tightly to who you are and what you believe in. Defend your dignity if it's challenged. It's one thing that no one can take from you no matter what.

Gemini 5/21-6/20

Don't be surprised if someone describes you as conservative, Gemini. It may be true. It could indicate that it's important for you to maintain control over most things - what you say and how much, how you dress, the kinds of people you spend time with, where and how you spend your money - these are all things that conservative people tend to closely monitor. Be proud of who you are.

Cancer 6/21-7/22

Your mother may be on your mind today, Cancer. Your mother probably affects how you think, act, and feel, both in the past and now. If your mother's sign is opposite yours, conflict and misunderstanding can happen more easily. Take the time to learn about her sign today to help you understand her and the relationship you have.

Leo 7/23-8/22

Focus on yourself today, Leo. Take note of your health. You probably know that this is something you must take care of always, not just sometimes. Daily routines are important. It's up to you to stick to them. The little things like taking vitamins, staying active, and relaxing help maintain a healthy body. If you aren't feeling your best, make your habits more conducive to glowing health.

Virgo 8/23-9/22

No dream is too big or too late to fulfill. You may be thinking about your special dreams today, Virgo. Perhaps you aspire to do something really great, be a pioneer in some field, or be a prominent figure. Whatever it is can happen if you believe in yourself and work toward it. Don't let naysayers stop you. If you decide you can, you probably will.

Libra 9/23-10/22

Chances are good that you will receive a helping hand or comfort from someone many years your senior who cares about you, Libra. Don't hesitate to ask for their thoughts, ideas, and assistance. They will probably enjoy being able to do this for you and be glad that you've approached them. Be open and accept the love and support that's offered.

Scorpio 10/23-11/21

Today, Scorpio, you may think about competition and possible future goals. Imagining and dreaming can serve you well. What did you dream about as a kid? Who did you want to become? Are you close to this in your life now? If not, is this all right for you? Take time to think such things through and, if need be, get back on the right track.

Sagittarius 11/22-12/21

You may think about your finances today, Sagittarius. It's never too late to learn about saving and investing, especially if there's something you really want to do, like travel. Preparing for retirement can seem surreal when you're young, but it's important to start early. Regardless of how your affairs have gone to date, change starts now. Write down your goals and meet with your financial adviser.

Capricorn 12/22-01/19

Take the time today to consider your health, Capricorn. Do you get enough rest, eat the right foods, take vitamins, exercise every day, go to the doctor when you need to, and take time to relax? All these help you have a lifetime of good health. Living a long, healthy life is something we all want. Start now to take care of your body.

Aquarius 1/20-2/18

Today you may emphasize organizing things and managing your life, Aquarius. Take a look at your time management. It's possible to plan every day so you have enough time to do what you have to get done as well as do everything you'd like to do. Set priorities to keep things flowing well. There are many books and websites out there on this subject. Check them out.
