FBI Honors Internship Program

Behind the Scenes with Our Summer Interns

Hands-on forensic science projects, programming, legal analysis, and speech writing

are just some of the things that FBI honors interns accomplished this summer.

The FBI Honors Internship Program is a paid, 10-week summer experience that begins in mid-June and ends in mid-August each year. Undergraduate, graduate, and post-doctoral students with at least a 3.0 GPA are placed in FBI divisions based on their skills. Once there, honors interns use their strengths

to protect the American people and uphold the Constitution of the United States.

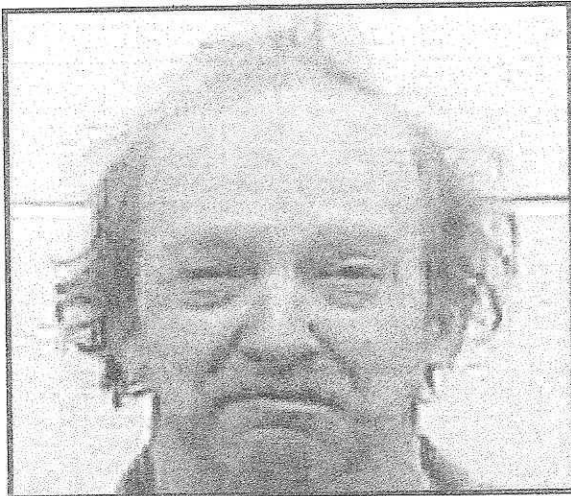

The FBI hires interns with backgrounds in computer science, law, forensic science, and other disciplines. Regardless of your college major, you can be considered for a spot in the internship. The internships are competitive—on average, 12,000 students apply each year for just a few hundred slots. Some interns work

out of FBI Headquarters in Washington, D.C., and others are placed in offices around the country.

In addition to completing the initial application, interested students must also pass a full background investigation, which includes a drug test and polygraph examination, to get a Top Secret security clearance.

Floyd Cabe, 46, Mall Street Knoxville, was charged with Man/Del/Sale or Poss. Of Meth, Man/Sell/Del/Resale Sch. I, Tampering/Fabricating with Evidence, and Driving on Revoked/Suspended License.

Lloyd Lee, 51, River-view Drive Knoxville, was charged with Public Intoxication.

Deputy Swinney LCSO, was dispatched to the Interstate 75NB onramp at Sugar limb in reference to a wreck and possibly drunk driver. Deputy made contact with two males walking towards near the Sugarlimb side on the onramp. Deputy identified Lloyd Lee and Floyd

Cabe by their names and date of birth. Mr. Cabe stated that they were in an accident and they were trying to get to Sugarlimb where they could get better cell service. Sgt. Jenkins 904, Cpl. Smith 962, Deputy Scarborough arrived on scene to assist, Cpl. Smith went to the vehicle and it was wrecked off the side of the onramp. Sgt. Jenkins checked the sobriety of the passenger Lloyd Lee, he was unable to keep his eyes open or even follow Sgt. Jenkins stimulus. Mr. Lee was placed under arrest, during a search of his personal property, a cut straw was found in his cigarette pack. for public intoxication and transported to the jail by Deputy Scar-

borough. While conducting a pat-down of Floyd Cabe, Deputy noticed an object midleg near his knee, Deputy asked what it was and he advised it was a box, he then began to remove the box and Deputy recommended that he remove his boot to better let the item fall to the ground, Deputy opened it and found 2 small bags, he stated that he found the box on the side of the interstate and it didn't belong to him. Mr. Cabe was taken into see Wreck ctd. pg. 3

custody and placed in his patrol car. Narcotics Investigator Marty Stanley arrived on the scene and utilized TruNarc and it tested positive for a mixture of Heroin and Fentanyl (Scan 980) and weighed 0.6 grams. He was transported to the Loudon County Jail. When arrived at the jail, Mr. Cabe was removed from the back of my patrol car and was walking towards the corrections staff,

did throw a plastic vial, filled with a clear white substance, onto the floor, and stated that he found it in my patrol car. This did happen in front of Cpl. Smith and Deputy Scarborough while Deputy was checking the back seat of my patrol car as Deputy do after each arrest and transport. Investigator Stanley later met me at the Sheriff's Office and the clear white substance tested positive for Meth (Scan 983) and weighed 0.8 grams.

FBI

ternship Program ended today. Students interested in the FBI's 2022 summer internship program can learn more and apply at fbi-jobs.gov. The application period is open from September 13 to October 17, 2021.

Before returning to school, some of our 2021 honors interns shared more about their experiences inside the Bureau:

Allie-Grace

Education: Undergraduate student, communication and media studies major at Georgia Tech

Assignment: Office of Public Affairs

Typical Day at Work: My typical day can range from interviewing agents to sitting in on events, writing articles, and so much more. Every day is different.

Best Experience: Watching executives read words that I helped craft and seeing my work come full circle. I also have many people here guiding me along the way to make sure the work I put out is the best that it can be.

I Applied Because: I really resonated with the FBI's mission. I loved seeing that I could use my

communication skills to make an impact. And of course, getting to work for the FBI is an opportunity I could never pass up.

Best Advice: Say yes to as many opportunities as possible. The FBI does such incredible work in so many different areas that are all worth exploring.

Wesley

Education: Undergraduate student, computer engineering and electrical engineering at NC State

Assignment: Inspection Division

Typical Day at Work: I create programs in Python and Visual Basic for Applications to make processes more efficient for my team. I also work a lot in SharePoint to build sites for my unit. I have had many different projects that were all meaningful. I know my work will have a lasting effect on the Bureau.

Best Experience: Touring the Operational Technology Division at Quantico. It was amazing to see the different forms of technology being developed and the capabilities we have at the Bureau. It piqued my interest, and I hope to help contribute to the

development of new technologies in OTD someday.

I Applied Because: I knew I wanted to work for a government agency. I wasn't sure which one, but I loved the Bureau's mission and wanted to carry it out. I am very passionate about protecting the American people and upholding the Constitution. Being here has furthered my belief that this is something I want to do with my

life.

Best Advice: Don't be afraid to ask about things you are interested in.

Horoscopes

difficult to resolve now. People feel rather sensitive. If they hear something they don't like, especially an opinion that may seem too critical, they're likely to shut down. You might want to consider saving anything of a sensitive nature for tomorrow.

Virgo 8/23-9/22

People may be coming on strong, but you will be right there to meet them with an equally powerful rebuttal, Virgo. The problem is, the person who confronts you is talking about apples and you're talking about oranges. Get off your soapbox for a minute and listen to the real issue. Don't get caught in misunderstandings or things could backfire later.

Libra 9/23-10/22

If something doesn't make sense to you, Libra, question it. Be strong and confident. Don't let others take advantage of your sensitive and nurturing personality. Your general tendency is to give more than you receive, but this may leave you feeling depleted. Put an end to this cycle. Be conscious of how you distribute your energy. Do something for yourself.

Scorpio 10/23-11/21

Try to control your aggression, Scorpio. People are likely to be a bit more sensitive than usual. You can use your powerful nature in positive ways by turning your energy inward and conquering the demons within. It may feel like others are trying to put a monkey wrench in your gears, so be careful.

Sagittarius 11/22-12/21

It's time to be more aggressive regarding your needs, Sagittarius. Think of your heart as a powerful muscle that needs a tough workout. You'll want to surround yourself with positive people who believe in you and support your efforts. Pump yourself up with vitality and self-confidence. Make time for exercise and meditation. Bring more balance and harmony to your life.

Capricorn 12/22-01/19

You're in the hot seat today, Capricorn. Other people might put you on the spot for no apparent reason. This uncomfortable feeling could lead to tension if you overreact. Be careful that you have all the facts on the issue before you react. The whole situation may be a big misunderstanding. Maintain a level head tempered with kindness and respect.

Aquarius 1/20-2/18

If there is something you need to fight for, this is the time to do it, Aquarius. For a while now you've been doing research on the best way to proceed. The time has come to take action. You have an extra boost of vitality, and your warrior instinct is strong. You feel like a volcano ready to expel boiling hot lava. Trust and follow your instincts.

Pisces 2/19-3/20

You may not feel in the mood to fight today, Pisces. If someone challenges you, talk your way out of it. You will probably be able to win any battle with your words.

Try sensitive reasoning instead of open combat. Listen carefully to the concerns of the opposing side and make your move accordingly. This isn't a contest. It's a conversation among friends.

Aries 3/21-4/19

Take pride in your nurturing instincts, Aries. Rescue an injured bird or join a conservation group. Do something to help save the whales. Take a more active role in the preservation of the planet. Become a concerned citizen who regularly speaks out for what you believe in. Don't let other people's political agendas get in the way of your true purpose.

Taurus 4/20-5/20

Something or someone may urge you to make a major move, Taurus. Be sure you make it in the right direction. Remember that strength lies in numbers. To conquer, people must unite. Factions of people continuing to fight among themselves only aggravate the

problem. The key is to accept one another's differences and work together on the larger issues that affect us all.

Gemini 5/21-6/20

Your ego is strong today, Gemini, and you have a strong will. This is a good time to put your plan for world domination into effect. Be sure you channel your powerful emotions into positive outlets. Create rather than destroy. Energy that isn't used in a positive way will end up manifesting as accidents or hostility toward people who don't deserve it.

Cancer 6/21-7/22

Focus more of your power on your home and family life, Cancer. Take care of domestic issues and stick to household chores and duties. The more you do to your home, the more others will be inspired to pitch in and help. You may find it difficult to connect with certain people, so it might be best to give yourself some time alone.

Assignment: Office of General Counsel

Typical Day at Work: As an honors intern, I have had the opportunity to work alongside such genuine and brilliant attorneys. There truly is no "typical day" at OGC—there is something new every single day. My responsibilities have included drafting legal research memos, strategizing legal analysis alongside other agencies, and assisting attorneys in legal advising for FBI operations.

Best Experience: Learning from and about each attorney I get to work with. It has been so interesting to learn about their career paths and extensive experience throughout the FBI. Each attorney has provided me with genuine mentoring, guidance, and encouragement for my future.

I Applied Because: I chose the FBI because of the opportunities to grow as an individual and a professional while pursuing a rewarding career path.

Best Advice: I remember being in absolute awe on my first day as an honors intern—I was so amazed by each employee's drive and passion to be at the FBI. As I shared my thoughts with an attorney, he responded, "Choose a career that you genuinely enjoy, and the passion will come naturally."

Sarah

Education: Incoming graduate student, Arizona State University studying emergency management and homeland security

Assignment: Criminal Investigative Division

Typical Day: I help with numerous projects, attend meetings and briefings, and network with agents and professional staff. I also get to meet up with other interns for lunch and breaks.

Best Experience: Visiting the FBI Academy with fellow interns has been my favorite experience. I have also had the opportunity to network with everyone I have crossed paths with, while learning about all the different opportunities the Bureau has to offer.

I Applied Because: I never thought I would be the small percentage of fortunate individuals to be chosen as an honors intern. I have always wanted to

work in law enforcement or the federal government, so without hesitation, I applied to the Federal Bureau of Investigation.

Best Advice: Become sponge-like and absorb every piece of information and experience given to you.

Sam

Education: Undergraduate student, University of North Carolina at Chapel Hill

Assignment: Laboratory Division

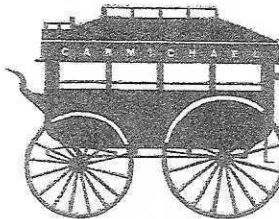

Typical Day: After doing administrative tasks, I head to the lab side of the building where I work with some interesting technology. Bullets used in firearms contain metal cartridge cases. I load the cartridge cases into a system and scan them using high-tech sensors. Then, they are transformed into detailed 3D images. The unique, microscopic 'toolmarks' on the rear of the cartridge case help examiners identify them as having or having not been fired from the same firearm. I also conduct surveys, write literature reviews for research, and observe the examiners as they work on casework.

Best Experience: Assisting with a career fair for soldiers. It was my first time "representing" the FBI, and I felt honored to tell transitioning soldiers about potential career paths for them in the Bureau. Aside from that, my favorite aspects of the internship are easily those involving observing and occasionally assisting with casework in whatever way I can.

I Applied Because: Unlike many other interns, it was never my dream to work for the FBI before I became intern. Rather, I applied purely out of an interest in forensic science when I learned of the opportunity to intern at the prestigious FBI Laboratory.

Best Advice: I would have to say two things: First, "Ask, ask, ask!" You'll never know what you can do or watch unless you ask about it. Be honest about your interests and be open with your questions. The second thing is to always remember the importance of whatever you're doing, no matter how small. Whether your task seems boring or not, it is helping assist the FBI's mission and is helping people, and that is a privilege.
