FBI Teams Up with Girl Scouts to Promote Science, Technology Careers

During the first-ever online National Girl Scout STEM Festival promoting the merits of science, technology, engineering, and math (STEM), an FBI forensic scientist and expert on latent fingerprints held aloft her forest green Girl Scouts sash bedecked with colorful badges. It was a signal to the thousands of girls and parents who logged into the virtual event that she was one

of them—and that they could be like her, if they wanted.

Kim Edwards, chief of the Latent Print Support Unit at the FBI Laboratory in Virginia, joined a panel of FBI Laboratory scientists to talk about their unique jobs and the STEM paths they followed to get there. The virtual event drew big-name presenters from the public and private sectors—all with the same goal of appealing

to girls and young women to pursue STEM subjects. It's one of the ways that girls can grow as a part of the Girl Scout Leadership Experience. And it opens a whole world of possibilities according to Edwards, who was a Girl Scout growing up.

"I've always loved math and science puzzles, so being

Virgo 8/23-9/22
By jumping around from place to place,

DUI+

Carlos Da Luz Lins, 30, Rua Sete DE Jabara, was charged with DUI, Driving without a valid License, Reckless Driving, and Open Container.

Cpl. Z. Frye LCSO, observed a vehicle traveling at an extremely high rate of speed Eastbound on Interstate 40. Once behind the vehicle Deputy paced it at approximately 115MPH. The vehicle passed several cars almost striking them and running them off the roadway.

Once behind the vehicle it crossed the white fog line several times and was hav-

ing a hard time maintaining its lane of travel. Upon traffic stop while at the passenger side of the vehicle Deputy could smell a strong odor of an alcoholic beverage emitting from the vehicle. Deputy identified the driver as Carlos Da Luz Lins.

The driver stated he was traveling from Nashville to Knoxville. He stated he drank 4 beers prior to leaving Nashville. Due to a strong language barrier Deputy was only able to conduct the Horizontal Gaze Nystagmus Test in which he performed poorly. Located in the passenger floorboard was one half empty 12oz beer can that was still cold to

the touch. Due to the totality of the circumstances Deputy placed Mr. Da Luz Lins in custody for driving under the influence.

Once at the jail Mr. Da Luz Lins was read the Spanish TN Implied Consent Advisement and he did consent to provided a breath sample. He provided two sufficient samples of .128 and .129 g/210L.

This all occurred in Loudon County, TN.

STEM

to inspire girls to pursue STEM fields seemed like a really fun opportunity," said Edwards, who talked about fingerprint patterns and processing techniques during the FBI's 45-minute segment. She was joined by an FBI biologist who talked about DNA processing and a forensic examiner who specializes in analyzing hair and fibers in the Laboratory's Trace Evidence Unit.

The day-long virtual STEM festival in April drew more than 15,000 registered visitors who logged in for dozens of presentations on everything from robotics to coding to engineering and cybersecurity. The FBI's participation was part of an ongoing relationship with Girl Scouts that was codified this spring in a memorandum of understanding recognizing the organizations' symbiotic relationship. For the FBI, inspiring the next generation of STEM leaders means developing future professionals with the skills and leadership the FBI needs to support its mission.

"Hopefully our collaboration will inspire girls to discover new

career interests, and perhaps some of these young women will even decide to take their talents to the FBI," said Larissa Knapp, executive assistant director of the FBI's Human Resources Branch and one of the highest ranked women in the Bureau.

Rachel is a lifetime member of Girl Scouts and has been a volunteer for nearly 20 years. Her husband is a retired special agent, and three of their kids are Girl Scouts. While posted to the FBI's legal attaché office in Paris, Rachel served on the board of USA Girl Scouts Overseas, which delivers the organization's leadership experience to the daughters of U.S. military, foreign service, and expat families around the world.

"Girl Scouts are excited to learn from FBI agents—who are both experts in the field and use STEM to make a difference every day," said Suzanne Harper, senior director of National Programs and Partnerships for Girl Scouts of the USA. "We are truly excited to formally expand this powerful partnership between our organizations and

for Girl Scouts across the country to explore STEM careers and cybersecurity through badge activities led by FBI field agents in their communities."

Under the new collaboration, community outreach specialists in the FBI's 56 field offices will work with local Girl Scouts councils to offer speakers and presentations on subjects within Girl Scouts' current cybersecurity programming, where Girl Scouts can earn badges based on their grade level (K-12).

FBI biologist Tiffany Thoren said it was outreach like that that exposed her years ago to the possibilities of blending her love of science with criminal justice. She grew up being an active

Girl Scout in rural Central Kansas and got her first microscope when she was 6 or 7. But there wasn't much visibility about careers until she was in 6th grade and got a tour of a police lab.

"From that point forward, I knew that's what I wanted to do," said Thoren, who works with forensic labs that participate in the FBI's national DNA database through the Combined DNA Index System (CODIS), a program that is used to share DNA profiles across U.S., as well as federal law enforcement agencies and the Department of Defense. "That one moment in time changed my life, because that gave me exactly the focus of what I wanted to do for a career."

Public Notice

The Loudon County Commission will have a special called meeting on September 7, 2021 at 5:30 at the Annex to discuss and finalize plans for the Courthouse.

LPD

Lacy Green, 31, Linden Lane Loudon, was charged with Prohibited Weapons, and Disorderly Conduct.

Sgt. S Newman LPD, received a call of a unwanted subject, Caller advised Lacy Green was beating on his front door refusing to leave. Before Officer arrived the Neighbors called 911 and advised the female was screaming and yelling causing a disturbance. Caller also advised she had a black object that appeared to be a gun, Upon arrival Officer observed Mrs Green in the street screaming. She threw a black object in the her vehicle as Officer exited his vehicle. Mrs Green continued to scream advising the complaint had stolen her drivers license and cell phone. Officer placed Mrs Green under arrest and placed her in the back of his patrol car. A search of the car in the area she threw item turn up a set of brass knuckles with a fixed blade approximately 4 and a half inches long. At Loudon County jail the items she reported stolen were found on her persons said actions happened in Loudon County.

Horoscopes

Virgo, you may end up feeling like you're getting nowhere. Instead of tackling many different tasks, today is better spent focusing your energy on one. Start from ground level and work up. Get to the root of the problem and many of the related issues will simply dissolve as you work.

Libra 9/23-10/22

Make a plan at the beginning of the day for what you want to accomplish by sundown, Libra. This is a good time to tackle many of the nitpicky tasks that require your attention. Be conscious of the fact that there are time limits and restrictions on some of the things you're working on. Keep on task and try not to get distracted by other people.

Scorpio 10/23-11/21

You might have to adjust your way of thinking in order to match the energy of the situations around you. While you may feel a desire to strike out into some new, adventurous activity, there's a strong resistance asking you to be more cautious and stable. Don't lose touch with your pioneering attitude, but don't fall prey to reckless behavior, either.

Sagittarius 11/22-12/21

Your steady nature will be greatly appreciated today, Sagittarius. A well thought out plan of attack is the one that wins approval from the higher-ups. You know the best way to proceed and now all you need is the confi-

dence to follow through with your ideas. Getting things started should be easier for you today since your mind is working in harmony with your heart.

Capricorn 12/22-01/19

It's possible that you're feeling obliged to do something out of a sense of duty toward family or loved ones, Capricorn. Take this time to help someone who's struggling with who they are and what they're doing in this world. Your concern for others reflects a noble sense of empathy that you should develop more regularly. We're only as strong as the weakest link. Do your part to strengthen the chain.

Aquarius 1/20-2/18

Your thinking is clear today, Aquarius, but it might be hard to take action on your thoughts. A restrictive force may seem to be holding you back. A sense of discipline is welling up within you, reminding you to add a touch of conservatism to whatever it is that you have in mind. Take the opportunity to pursue tasks that require you to be reserved and collected.

Pisces 2/19-3/20

Your flamboyant approach may not get as much attention today as you'd like, Pisces. Don't push yourself to achieve something that isn't working. By insisting that something should be done your way, you'll only create enemies and bottlenecks in whatever task you're trying to accomplish. A thoughtful, conscious, reserved approach is going to win today.

Aries 3/21-4/19

You have exactly the right amount of discipline and sense of duty to accomplish quite a bit today, Aries. Your thinking should be clear. Your sense of time and restriction works in your favor to help you figure out any puzzles that present themselves. You have a strong will that helps you complete just about every task you undertake.

Taurus 4/20-5/20

Trying to talk your way out of tasks and obligations probably isn't the best way to win friends today, Taurus. In fact, this is a time to get yourself in gear and take responsibility for your actions. The time you spend trying to weasel your way out of something is better spent just doing the thing that you need to do. Be understanding and receptive of other people's objectives.

Gemini 5/21-6/20

Just when you thought you had everything figured out and planned correctly, another obstacle appears, Gemini. Your first reaction may be to get upset. Rage won't help. You can't always control ev-

erything. There are bound to be surprises. Plan for what you can, but know that there are often unknown forces working against your aims. Watch out!

Cancer 6/21-7/22

The fire within you may be burning brightly, Cancer, but unfortunately, there isn't a great deal of fuel available to keep it going. It may seem as if people are trying to rain on your parade, but they're just trying to do their duty. Relax and contemplate what's going on around you. This may not be the best day to implement change and promote new ideas.

Leo 7/23-8/22

You may find that other people are the missing variable in the equation that you seek answers to today, Leo. Don't feel like you have to come up with all the details and resolutions yourself. Work with those who also have something to contribute to the situation at hand. A quiet, disciplined approach is exactly what's needed to plow through any problem that needs fixing.
