Turman Dr. in reference to a break-in in progress. Dispatch advised the possible offender had left the scene in a silver Nissan car, possibly going towards Knox County. Upon arrival, the deputy made contact with Complainant. She stated that James Dearing (Offender) knocked on their front door very hard and attempted to enter the home through the door. When he stopped knocking, he walked over to the window closest to the road. This window is to the bedroom of Victim. The deputy made contact with the victim, and she stated that she heard noises coming from her room and went to the door. She saw James leaning into the window, attempting to climb in. She stated he had pulled the window out, knocked over the decorative candle and crosses in the window, and was reaching through. She stated that they argued, and she stepped closer. At that time, he pulled out a black, box-cutter-style knife and began swinging it at her. She stepped back; he grabbed the blow-up mattress just under the window and cut the mattress. At that time, the complainant called 911. The deputy observed a cut in the mattress that was approx-

imately 18 inches long and was consistent with a cut from a razor. While speaking with the victim, the deputy noticed the crosses were knocked over. She stated she feared for her life and was afraid he would enter her home and harm her and her family. The victim clarified that James and her had previously been married and there was a history of domestic abuse. The victim and complainant filled out written statements while Sgt. Det. McVay CID 6, and the deputy walked around the home and took pictures of evidence. The candle that was described was on the ground outside of the window. Cpl. Bengel, spoke with neighbors that possibly could have witnessed the crime. Carl Price stated that he witnessed James attempting to climb into the window but could not see what was happening inside. He lives at Turman Dr. but did not want to identify himself any further. While outside, Cpl. Bengel observed a black Husky brand, box-cutter-style knife laying in the grass approximately 10-15 feet from the victim's window. All written statements and evidence were collected. While the deputy spoke with the victim, Deputy Willis and Deputy Curtis located the described vehicle driven by James Dear-

ing. James's license status is revoked for DUI. Deputies conducted a felony traffic stop on the vehicle and detained James. The vehicle was a 2013 Silver Nissan Sentra (976BNJQ). Offender's mother was located in the passenger seat. Deputy Willis read James the Miranda Warning. He stated that the victim owes his mother \$100, and they went to their house to collect the money. When mother did not get the money, he knocked on the door and was not let inside. He stated that he went to victim bedroom window and opened it, then reached inside to grab a torch lighter. While reaching inside, the victim came in, and they began arguing. Deputy Willis spoke with the mother, and she stated that James did open the win-

dow and reached in, but she was not able to see what happened inside. The mother also filled out a written statement regarding the situation. Deputy Willis transported James to the Loudon County Jail. I met them at the jail and reminded James of his Miranda rights. He stated that he understood. The deputy asked James about the knife, and he stated that there was a box cutter-style knife inside of his mother's vehicle, and it must have fallen out when he got out. The deputy also asked him about the cut to the bed, and he stated that the cut was from another pocketknife with an orange handle. He then stated that he actually tore the bed with his hands. James was taken inside the Loudon County Jail without further incident.

privately suited to her child's educational needs. In addition to paying the tuition to the other school, LCSS also agreed to reimburse Brown for mileage for transportation to and from the school.

From March 2023, through October 15, 2024, Brown submitted falsified mileage reimbursement forms to LCSS totaling \$36,473.

Brown claimed mileage reimbursement for more than 350 days when her child was transported to school by the Lawrence County Senior Center bus. She also submitted reimbursement requests

for four days when her child was absent from school.

Based upon this investigation, in March 2025, the Lawrence County Grand Jury indicted Rhonda Brown on one count of forgery of \$10,000 to \$60,000.

"School officials must ensure they properly monitor and review their reimbursement process," said Comptroller Mumpower. "This includes confirming the accuracy of the mileage reimbursement forms and paying the correct reimbursement rate based upon its contract."

manipulation to coerce or extort victims into producing, sharing, or live-streaming acts of self-harm, animal cruelty, sexually explicit acts, and/or suicide. The footage is then circulated among members of the network to continue to extort victims and exert control over them.

VIOLENT ONLINE NETWORKS

Some of the violent actors in these online networks are motivated by a desire to cause fear and chaos through their criminal conduct. However, motivations are highly individualized, and some threat actors may be engaging in criminal activity solely

for sexual gratification, social status or a sense of belonging, or for a mix of other reasons that may not be ideologically motivated.

TARGETING

These networks exist on publicly available online platforms, such as social media sites, gaming platforms, and mobile applications commonly used by young people. Many threat actors systematically target underage females, but anyone — juveniles, adults, males, and females — can be targeted. Victims are typically between the ages of 10 and 17 years old, but the FBI has seen some victims

as young as 9 years old. These violent actors target vulnerable populations to include children as well as those who struggle with a variety of mental health issues, such as depression, eating disorders, or suicidal ideation. Threat actors often groom their victims by first establishing a trusting or romantic relationship before eventually manipulating and coercing them into engaging in escalating harmful behavior designed to shame and isolate them.

EXTORTION AND SELF-HARM

The networks use extortion and blackmail tactics, such as threatening to swat1 or dox2 their victims, if the victims do not comply with the network's demands. The actors can manipulate or coerce victims to produce Child Sexual Abuse Material (CSAM) and other videos depicting animal cruelty and self-harm. Self-harm activity can include cutting, stabbing, or fansigning.3 Members of the networks threaten to share the explicit videos or photos of the victims with the victims' family, friends, and/or post the photos and videos to the internet. The networks control their victims through extreme fear and many members have an end-goal of

forcing the victims they extort or coerce to live-stream their own suicide for the network's entertainment or the threat actor's own sense of fame.

RECOMMENDATIONS

The FBI urges the public to exercise increased vigilance when posting personal photos, videos, or personal identifying information, or direct messaging online. Although seemingly innocuous when posted or shared, the images and videos can provide malicious actors an abundant supply of content to exploit and manipulate or alter for criminal activity. Victims are vulnerable to embarrass-

ment, harassment, extortion, or continued long-term re-victimization. The FBI recommends looking for warning signs indicating a victim may be engaging in self-harm or having suicidal thoughts.

The FBI recommends that family, friends, and associates consider the following potential indicators and warning signs:

Sudden behavior changes such as becoming withdrawn, moody, or irritable.

Sudden changes in appearance, especially neglect of appearance.

Changes in eating or sleeping habits.
